

Weather permitting, the Mosquito Control Section is planning the following insecticide application during daylight hours on Wednesday, June 10, 2009 and Thursday, June 11, 2009.

Application of Altosid 20% (Methoprene) will take place with a helicopter to control mosquito larvae in the following areas:

In and near Slaughter Beach, Lewes, Rehoboth, Dewey, Bethany, South Bethany, Fenwick, Primehook Beach, and Broadkill Beach.

All insecticides to be used are registered with the USEPA for mosquito control and will be applied according to USEPA-approved label instructions. The USEPA has determined that the insecticides to be used do not pose unreasonable risks to human health, wildlife, or the environment.
